

# Copies of both books on the Koch Treatment available

A note from Inge:

We hear so much about the bird flu, super-bugs that are antibiotic resistant, genetically engineered, potentized pathogens, the engineering of a pandemic to implement quarantines and martial law, the excuse to facilitate the transition to a New World Order police state, the 'string-pullers' and conspiracy, etc.

While it is important to stay abreast the unfolding events, and to understand the chess game, it is even more **important that we put on pressure to mandate the acceptance and use of effective solutions**, even when they may threaten profit potential of the Big Corporations, especially Big Pharma.

I was very fortunate in the 1950s-60s to have become acquainted (through our very open-minded family doctor) with a truly phenomenal therapy that is based on a scientific that I consider one of the most profound of the millennium.

On the website [www.williamfkoch.com](http://www.williamfkoch.com) you will find all of the literature connected with this work, including two books

1. [Birth of a Science](#) – an expose of the political intrigue exercised against true science
2. [The Survival Factor in Neoplastic and Viral Disease](#) - Text of Dr. William Koch delineating the Common Denominator to the origin of disease.

The Koch Treatment was extremely effective in curing infectious diseases – [and 100% effective in PREVENTING](#) the spread of these diseases. In the face of the "to-be-engineered" human-to-human bird flu – and recently Ebola – the logical and most effective approach would be the Koch Treatment approach.

I urge you all to **acquaint yourselves thoroughly with this science and treatment**. And then to inform everyone you know. This science is the best hope we have to counter any pandemics and the nonsensical mandatory medication that they would like to inflict on us during an emergency. You have available a free download of the two books, as well as other relevant materials. On the website - [www.williamfkoch.com](http://www.williamfkoch.com) – you will find material that will blow your mind.

In 2002, when I discovered this webpage, I printed copies of both books in an 8 ½ x 11" format. Because I consider "resurrecting" this therapy of great importance, I have printed more copies of both books for anyone who doesn't want to go to the trouble of downloading, printing and binding. I also have them on my computer, and can email them to anyone requesting them.

To keep them together, I have bound the two books under one cover. They comprise approx 320 pgs together.

**The cost of printing and binding both books is \$10 + shipping for those who are not local.**

Just let me know if you want or need a copy.

Thanks for helping me bring this science to the attention of authorities, politicians, medical practitioners, and the public.,

Inge
